

PROTOCOL

from the meeting of the committee regarding the announced

Post-Doc position competition

within the NCN – SONATA BIS 14 project 2024/54/E/ST8/00100

Hybrid method of supporting the selection of aortic valve prosthesis using CFD simulation, machine learning and multi-stage validation

On 20 September 2025, a meeting of the competition committee was held at the Department of Thermal Engineering, Silesian University of Technology in Gliwice, composed of:

- Prof. Dr. Hab. Eng. Wojciech Adameczyk – Project Leader
- Dr. Eng. Marek Rojczyk
- Dr. Hab. Eng. Zbigniew Buliński, Prof. of SUT
- Prof. Dr. Hab. Eng. Ryszard Białycki

The competition committee was appointed by the **Vice-Rector for Science and International Cooperation** by letter dated 01 October 2025.

In response to the open competition (announced on 02 October 2025 by the Dean of the Faculty of Environmental and Energy Engineering of the Silesian University of Technology), four applications were received by the project leader within the deadline specified in the announcement. The committee confirmed the formal correctness of the submitted applications and evaluated them substantively.

As a result of the substantive evaluation, the committee decided to invite three applicants for interviews via the MS Teams application, which will take place between 27–31 October 2025.

Selected candidates will be notified individually via separate messages
