

PROTOCOL

from the meeting of the committee regarding the announced

Post-Doc position competition

within the NCN – SONATA BIS 14 project 2024/54/E/ST8/00100

Hybrid method for supporting the selection of an aortic valve prosthesis using CFD simulation, machine learning, and multi-stage validation

On 25 November 2025, a meeting of the competition committee was held at the Department of Thermal Engineering, Silesian University of Technology in Gliwice, composed of:

- Prof. Dr. Hab. Eng. Wojciech Adamczyk – Project Leader
- Dr. Eng. Marek Rojczyk
- Dr. Hab. Eng. Zbigniew Buliński, Prof. of SUT
- Prof. Dr. Hab. Eng. Ryszard Białecki

The competition committee was appointed by the **Vice-Rector for Science and International Cooperation** by letter dated 01 October 2025.

In response to the open competition (announced on 02 October 2025 by the Dean of the Faculty of Environmental and Energy Engineering of the Silesian University of Technology), four applications were received by the project leader within the deadline specified in the announcement.

Following a comprehensive evaluation, the committee resolved to conclude the competition for the Post-Doctoral position without appointing a candidate. The competition is scheduled to be reopened in March 2026.
